

## TAILORED AUDIO PRODUCTS

- Museums
- Heritage centres
- Public attractions

If your requirement is for a 'tailored audio' the we can provide a complete audio service from preparation of script to audio production in most languages.

The audio will be embedded on our Ambassador unit which is particularly ideal for centres which mix the outdoors with the indoor facility.

### **Ambassador Audio unit:**

- Self-Contained Digital Audio Player
- No Moving Parts
- Rugged & Water Resistant
- Message Length: up to 60 hours
- Power: - Solar panel – rechargeable batteries that last 13 hours without recharge + AC/DC jack
- Audio Output: - Internal speaker + port for earphone
- Controls: On/Off, Volume, Scrolling & Pause
- Size: Small Enough to Fit in Your Hand
- Dimensions: width – 64 mm height – 110 mm depth –22.5mm
- Weight: 114 grams
- 6 casing colours available
